

Our paperless payroll allows access through a private, secure online portal 24/7.

Employees are empowered to enter data and handle other parts of the process themselves, while employees are provided with the flexibility to enter data remotely from anywhere. Even with multiple locations, data flows and transfers seamlessly.

Learn how this impacts both employers and employees:

## For Employers

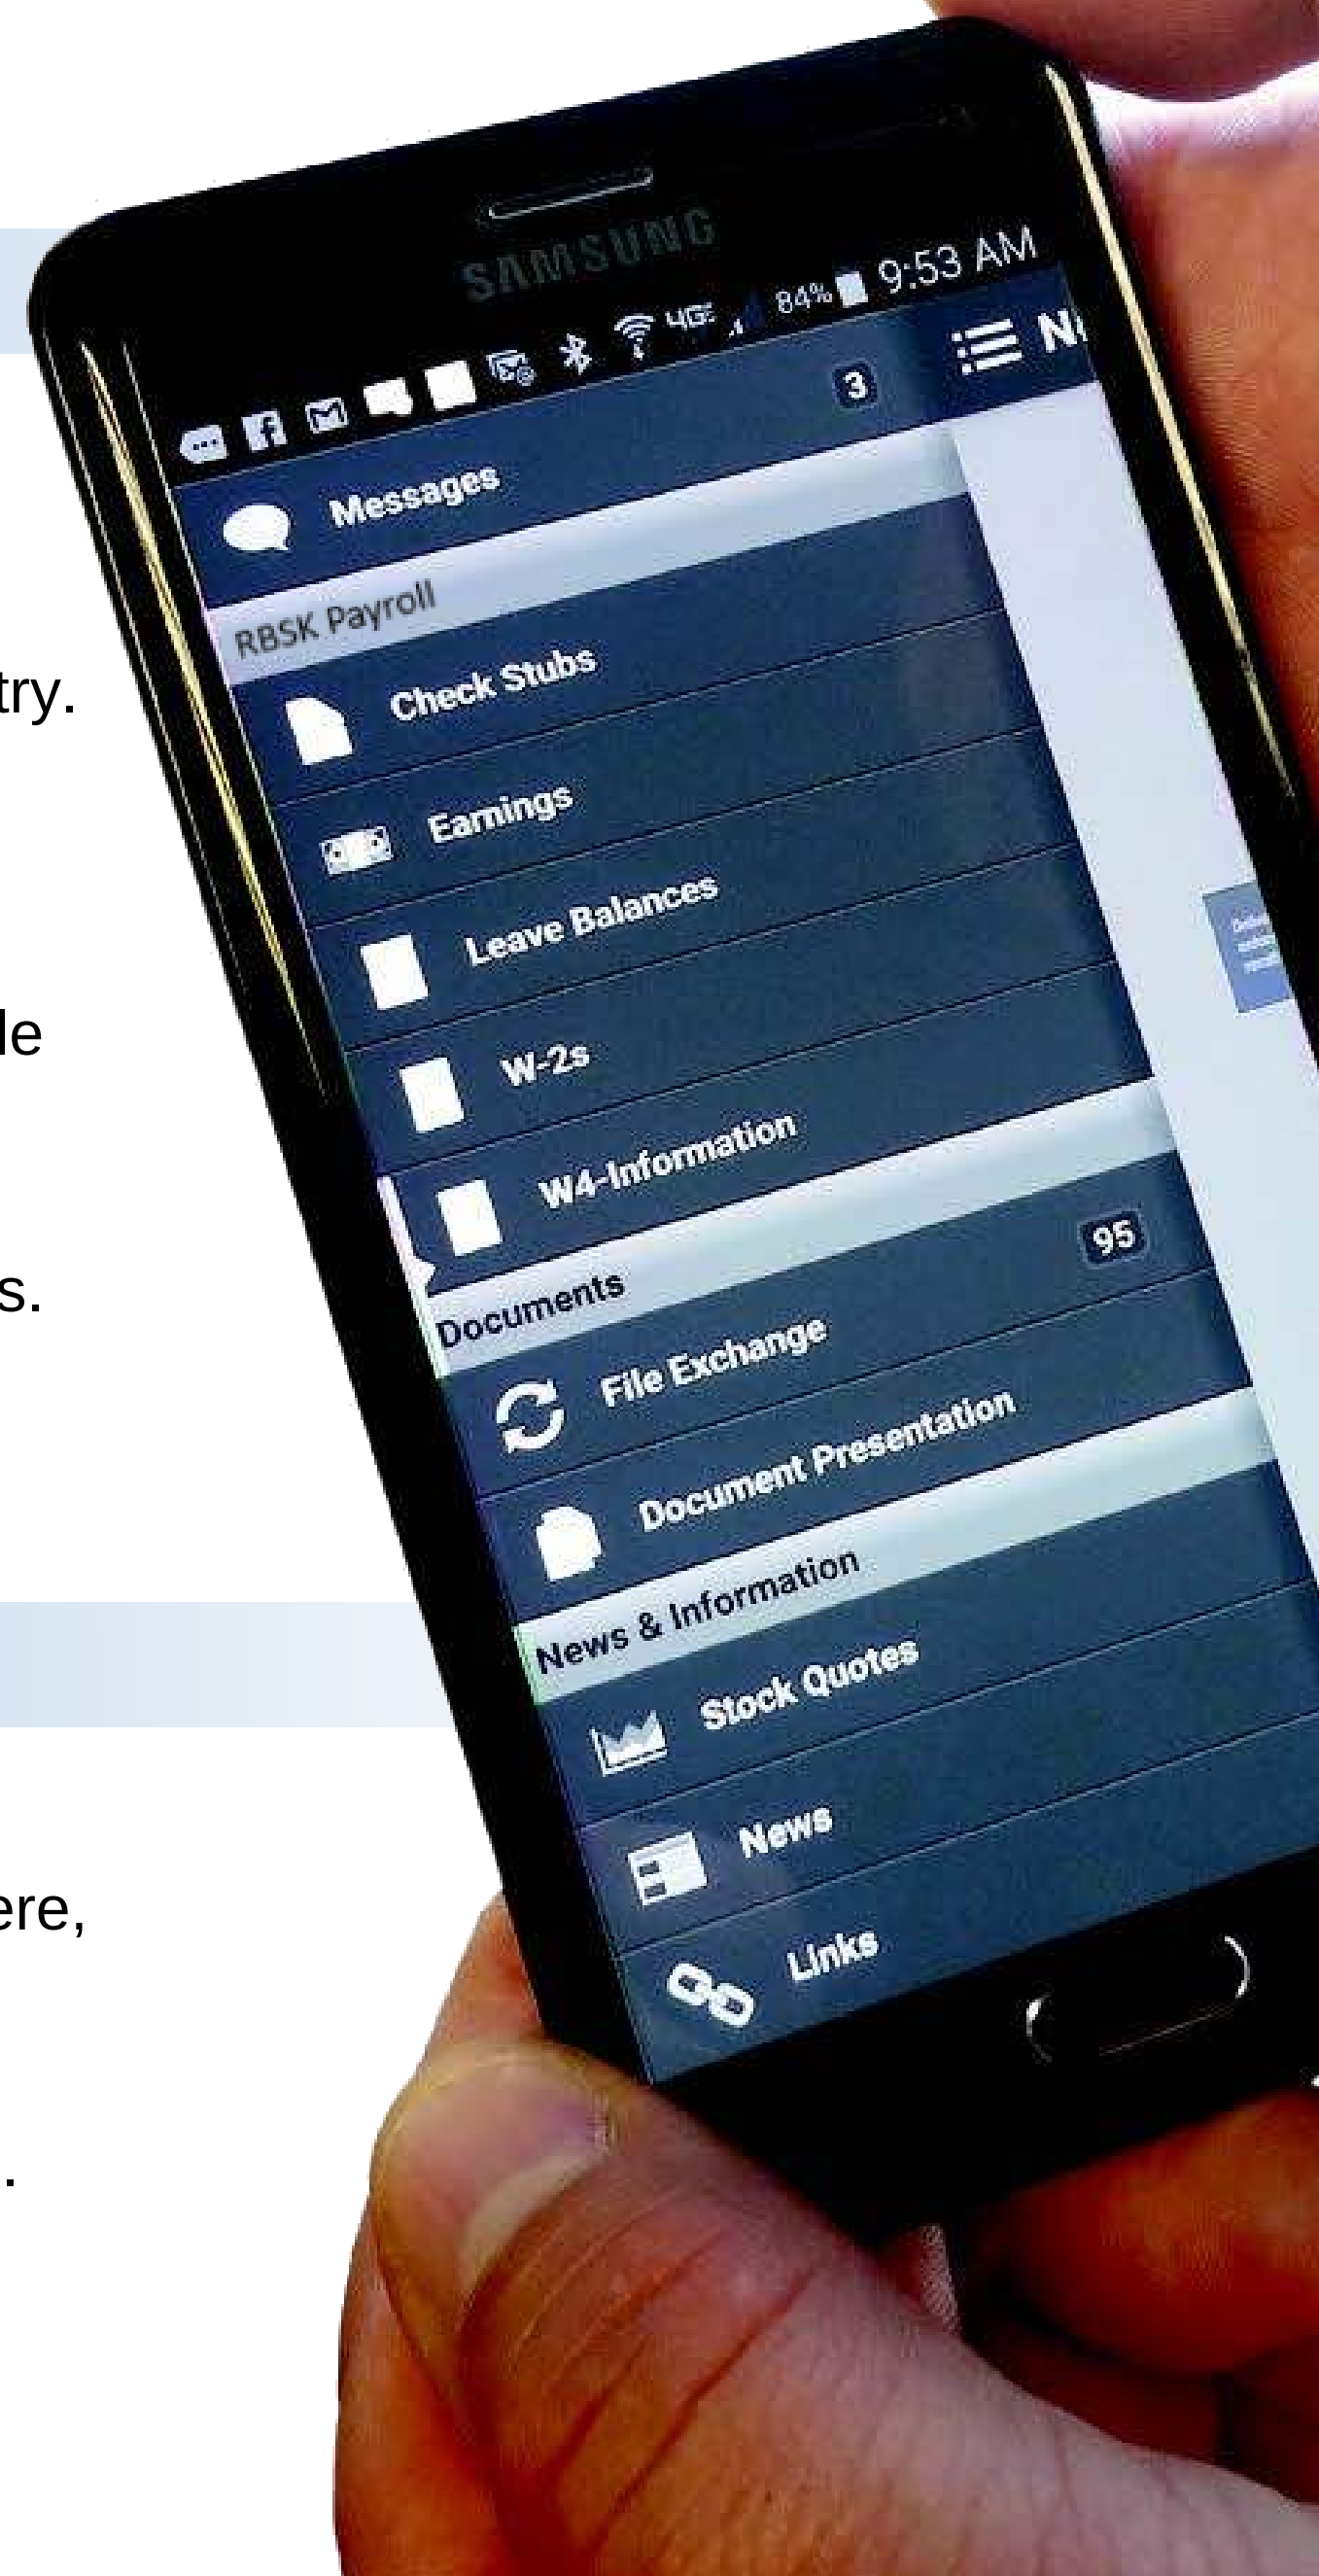

### Remote Payroll Data-Entry Includes

- Replace faxing, emailing and calling in payroll information with a seamless transfer.
- Reduce input errors and review time by eliminating manual data entry.
- Allows you to enter your employees payroll data online and from a private, secure portal available on desktop, mobile devices and tablets.
- Get immediate email alerts when your payroll information is available for processing.
- No need to print paper check stubs.
- Customized reports to create and view your choice of payroll reports.
- Ability to integrate your payroll with your time clock to save time.
- File your State and Federal taxes accurately and on time.

## For Employees

### Employee Self-Service Includes

- Employees can view W-2s and pay stubs online—anytime, anywhere, even from mobile devices.
- Paychecks delivered on time.
- Employee pay options - direct deposit, pay cards or printed checks.
- Employees can edit contact and withholding information and make other updates online.
- Employees can enter time remotely online.

**Streamline your payroll process by offering your employees the self-service feature and get back to doing what you do best - running your business.**
